

Innovation Needs Patent Reform

Presentation by Marianne van der Steen
Delft University of Technology, The Netherlands

Brussels, November 10th, 2004

Patent policy can benefit from system of innovation perspective

- Software patent: Pattern of Innovation
 - Tacit Knowledge
 - Systemic knowledge
 - Cumulativeness
- Patent system: not an incentive to innovate
- Prisoner's dilemma:
Risk of strategic patenting

Strategic vision on patent reforms

- **Systemic Innovation Policies**
 - The way forward to Lisbon goals
 - Include patent law & policy in strategy
- **Include Economic Innovation Analysis in Patent Policy Evaluation & Patent Reform Discussion**
 - A differentiated IP System?
